RING SIZE GUIDE USING A RING

Be sure this guide is printed in US Letter size and scaled to 100% before measuring your ring. You can verify the accuracy of your print by positioning a credit card on the line below. If the card lines up, you can start measuring.

The line should be 8.50 cm (3.35 inches) when measured with a ruler.

MEASURING BY MATCHING YOUR RING

To find your DoDo ring size, use an existing ring that fits you well. Match the inside of the ring with one of the circles below. When you find the right size that matches your ring, you should see only the black circle inside your ring with no white space.

RING SIZE GUIDE MEASURING MY FINGER

Be sure this guide is printed in US Letter size and scaled to 100% before measuring your ring. You can verify the accuracy of your print by positioning a credit card on the line below. If the card lines up, you can start measuring.

RING SIZE GUIDE MEASURING WITH THE DODO RULER

Firstly you cut out the ruler, then carefully cut the line to create a slit. Fold the ruler around the base of your finger and pull the smaller end through the slit. Please measure also your knuckle to be sure that the ring will fit comfortably. We recommend choosing a ring size that goes on and off your finger with ease.

Please note that if you measure the distance from the slit to the desired size, the value is slightly larger than the size indication due to the considered paper thickness compensation.
