RING SIZE GUIDE

Each circle corresponds to the inside diameter of the ring, the number in the middle is the circumference. So as to determine the size of your ring, you can use a ring that you own and whose size is right for you and compare on the chart to find the corresponding diameter. For the fit to be perfect, the circle on the chart should appear on the inside of your own ring, right next to it

If you are hesitating between two sizes, we advise you choose the larger size.
